

May 13
16.30-18.30
Meeting Room 11

Topic: Regional Challenges and Opportunities

Adaptation to Climate Change in European Mountain Regions

Programme

Chair: **Wolfgang Lexer, Environment Agency Austria (Austria)**

Time	Programme
11:00 – 11:15	Eve Leroy, University of Savoie (France) New tools to explore sustainable water management adaptation strategies in mountain areas and to bridge the gap between scientific knowledge and its uptake by the public
11:15 – 11:20	Q&A
11:20 – 11:35	Markus Keuschnig, alpS – Centre for Climate Change Adaptation (Austria) High-Alpine infrastructures – towards a climate-sensitive risk management: an example from the Kitzsteinhorn, Hohe Tauern, Austria
11:35 – 11:40	Q&A
11:40 – 11:55	Gilles Chomat, Permanent Secretariat of the Alpine Convention (transnational) The contribution of the Alpine Convention to climate change adaptation in the Alpine region
11:55 – 12:00	Q&A
12:00 – 12:15	Wolfgang Lexer, Environment Agency Austria (Austria) The Climate Adaptation Platform for the Alps: usable knowledge provision for decision makers in a transnational cooperation approach
12:15 – 12:20	Q&A
12:20 – 12:35	Saskia Werners, Wageningen University and Research Centre (Netherlands) Carpathian integrated assessment of vulnerability to climate change and adaptation measures
12:35 – 12:40	Q&A
12:40 – 12:55	Sandor Szalai, Szent Istvan University (Hungary) Adaptation to climate change in the Carpathian Convention
12:55 – 13:00	Q&A

Poster:

Climate change adaptation through efficient agricultural production and optimized renewable fuel production and use in Alpine regions – The Project “EF-Agri”	Piringer Mr, Gerhard, Vienna
