

**May 13**  
**14:00 – 16:00**  
**Meeting Room 16**

**Topic: Adaptation in different sectors**

**Adapting to climate change in the coastal zone: How do we support decision makers to take up the challenge?**

Method(s) used for workshop: This workshop will be a mixture of presentations and group discussions around key aspects related to the topic. Rapporteurs will keep notes from the discussions. There will be opportunity for feedback to the entire group, and notes will be distributed following the conference. The contact details of participants will be collected during the workshop.

The information provided from participants will be compared with information from similar workshops run in Australia 2 months prior to the ECCA Conference. All participants will be provided with a comparison between the ECCA workshop and the Australian workshop.

**Draft Programme**

Chair: David Rissik

<b>Time</b>	<b>Programme</b>
14:00 – 14:20	Introduction to the workshop including aims. Background to the development of a tool to support decision makers being developed in Australia. David Rissik
14:20 – 14:50	Group discussion 1. Key challenges for coastal adaptation decision makers Break out groups of approximately 10. A rapporteur will be allocated to each group. Group will select a chair for reporting back. Report back. Jean Palutikof will run this breakout and report back session.
14:50 – 15:00	Report back from discussion 1
